EXPERIENCE

Full-Stack Developer

Premium E-commerce & Management System ↗

04/2026 - 05/2026

- **Architected** a decoupled platform using **React/ Redux** and **Laravel API** with a **MySQL** database backend.
- **Designed relational database schemas** to manage complex product catalogs, orders, and user authentication via **Laravel Passport**.
- **Engineered a custom CMS** for real-time inventory tracking and sales analytics, optimized for data integrity and speed.

Full-Stack Developer

Multi-Clinic Management System (SaaS Project) ↗

02/2026 - 03/2026

- **Developed a SaaS-ready platform with multi-tenancy** architecture using **Laravel** and **MySQL** to isolate clinic data securely
- **Engineered scalable database structures in MySQL** to handle medical records, appointments, and billing for multiple providers.
- **Optimized SQL queries** and backend logic to ensure high performance and seamless data flow between the API and **React** frontend.

Full-Stack Developer

Portfolio CMS Project ↗

01/2026 - 02/2026

- **Engineered full-stack solutions** including backend logic and **MySQL** databases for dynamic content and lead management.
- **Integrated SEO-optimized architectures with Bootstrap**, ensuring fast data retrieval and high conversion rates.
- **Designed a modern, responsive user interface using Bootstrap**, ensuring compatibility across all device sizes.
- **Built a secure admin dashboard** for managing CRUD operations, media uploads, and site settings.
- **Optimized database queries and frontend interactions** for a smooth, high-performance user experience.

CERTIFICATES

Internships & Training

Creatievo

12/2025 - 04/2026

SUMMARY

Full-Stack Web Developer specializing in complex electronics engineering using Laravel and React, with specialized experience in building APIs, managing, and MySQL data requirements.

SKILLS

JavaScript	Expert
